Executive Summary

Plan Assets

- → As of March 31, 2022, Plan assets were \$801.2 million, down from \$843.4 million at the end of the prior quarter. The Plan experienced net cash outflows of \$2.5 million during the first quarter.
- → There were 22,908 participants with a balance at quarter-end, and the average account balance was \$34,970.
- → The largest Plan investment options by assets were:

| | 3/31/22 Balance (\$M) | Percentage of Plan Assets (%) |
|----------------------------------|--------------------------|----------------------------------|
| New Mexico LifeCycle Portfolios | 215.5 | 26.8 |
| Vanguard Institutional 500 Index | 137.1 | 17.0 |
| New Mexico Stable Value Fund | 131.5 | 16.3 |
| Fidelity Contrafund | 66.4 | 8.2 |
| Dodge & Cox Stock Fund | 39.2 | 4.9 |

Plan Observations

Five of the Plan's fifteen actively managed portfolios (New Mexico Stable Value Fund, Oakmark Equity & Income, Dodge & Cox US Equity, T.Rowe Price MidCap Growth, Principal Diversified Real Asset) matched or outperformed their respective benchmarks and universe medians during the quarter. Three of the Plan's actively managed portfolios (Fidelity Contrafund, Fidelity Low-Priced Stock, Columbia Institutional High Yield) matched or outperformed one measure but underperformed the other. Seven of the Plan's actively managed portfolios (Fidelity Diversified International, American Funds EuroPacific Growth, Principal US MidCap Equity, Wellington Opportunistic Emerging Market Debt, Invesco Global REITs, Aberdeen Emerging Markets Equity, Prudential Retirement Real Estate Fund II) underperformed both measures.

Investment Menu Observations

- → All nine LifeCycle Portfolios underperformed their respective custom benchmarks but outpaced the peer group medians. Outperformance versus peers can be attributed to the LifeCycle Portfolios' underweight allocation to public equities versus the peer universe, as equity markets depreciated meaningfully in the first quarter. Allocations to stable value, diversified real assets, and private real estate, which delivered positive returns during the quarter, also had a positive impact on returns relative to peers.
- → Fidelity Contrafund underperformed the Russell 1000 Growth benchmark but outperformed the peer median. The fund's underweight exposure to energy sector names, Exxon Mobil and Chevron, in conjunction with outsized positions in technology names such as Meta Platforms and Netflix detracted from relative results.
- → Dodge & Cox US Equity outperformed both the Russell 1000 Value benchmark and the peer median. Outperformance stemmed from the fund's overweight exposure to the energy sector (specifically with investments in Occidental Petroleum and Baker Hughes), as well as stock selection within the health care sector.
- → T. Rowe Price MidCap Growth outperformed the Russell MidCap Growth benchmark and peer median. Stock selection in health care contributed to relative results, as well as selection within the communication service sector.
- → Principal US MidCap Equity underperformed both the Russell MidCap Index and the peer group median. The fund's allocation to KKR (a global asset management firm with leading capabilities in private equity, credit and real assets) and CarMax (the largest used car retailer in the US) detracted considerably from relative performance.
- → Fidelity Low-Priced Stock underperformed the benchmark but outpaced the peer median. The fund's underperformance was primarily due to the fund's overweight exposure to the consumer discretionary sector and stock selection within the industrials sector.

Investment Menu Observations (continued)

- → Fidelity Diversified International underperformed the MSCI EAFE benchmark and the peer median. The fund's underperformance was primarily due to stock selection within the industrials, health care, and financials sectors.
- → American Funds EuroPacific Growth underperformed both the MSCI ACWI ex USA index and the peer median. Underperformance in the quarter was primarily due an overweight exposure to the information technology sector and stock selection within the communication services sector.
- → Aberdeen Emerging Markets Equity underperformed the MSCI Emerging Markets Index and the peer median. The strategy's underperformance was due primarily to investment exposure in Russia that was revalued at a steep discount, in conjunction with stock selection in the technology sector.
- → Wellington Opportunistic Emerging Markets Debt underperformed the JPM EMBI Global benchmark and the peer group median. Underperformance in the quarter versus the benchmark can be attributed to the strategy's underweight exposure to Indonesia and Turkey, as well as an overweight to Ukraine.
- → Columbia Institutional High Yield exposure is only available via the LifeCycle portfolios. The strategy outperformed the ICE BofAML US High Yield Cash Pay Constrained benchmark but lagged the peer median. An overweight allocation to electric generation and underweight to REITs and specialty retail contributed to results.

Investment Menu Observations (continued)

- → Invesco Global REITs underperformed the FTSE EPRA/NAREIT Global REIT index benchmark and the peer median. The fund's underperformance was primarily driven by stock selection within Australia and Singapore. Additionally, the strategy's overweight exposure to the North American industrial sector weighed on results.
- → Principal Diversified Real Asset outperformed the Real Asset Custom Benchmark; the peer group median was unavailable. The strategy's performance was driven by an overweight exposure and stock selection within the energy sector and positioning within metals and mining.
- → Prudential Retirement Real Estate Fund II exposure is only available via the LifeCycle portfolios. The strategy underperformed the PRREF II Custom Benchmark² for the quarter. Performance was driven by a strong underweight to the office sector, in conjunction with a modest underweight to retail.
- → Oakmark Equity & Income outperformed both the 60% S&P 500/40% Barclays Aggregate benchmark and the peer group median. The fund's short duration on the fixed income book aided relative results, in addition to stock selection within the energy sector.

¹ The Real Asset Custom Benchmark is composed of 40% Barlcays US TIPS, 40% MSCI ACWI, and 20% Bloomberg Commodity Index.

² PRREF II Custom Benchmark is composed of 85% NCREIF Open-End Diversified Core Equity Fund Index and 15% MSCI US REIT Index.
