

## Eligibility for Membership

The New Mexico Volunteer Firefighters Retirement Act (VFRA), established in 1983, applies to volunteer non-salaried firefighters who:

- are listed as an active member on the rolls of a volunteer fire department, and
- whose first year of service credit was earned during or after the year they turned 16 years old.

## Legislative Changes

Prior to 2003, a member's first year of service had to be earned before a volunteer firefighter was 45 years old. In 2003, this age restriction was removed. However, volunteer firefighters could not receive credit for calendar years prior to January 1, 2003. During the 2009 legislative session, several important changes were enacted that changed the VFRA. The 2009 legislation allows members to receive service credit for prior calendar years beginning in 1979, provided they met the minimum qualification in effect at the time. You must still be age 55 or older with 10 or more years of service credit to be eligible for retirement.

Prior to the 2003 session, volunteer firefighters were not eligible to receive a pension under the VFRA if they were receiving a pension from any other state system (PERA, Judicial, Magistrate, or Educational retirement systems). As of June 19, 2009, that restriction was removed. You can now receive a pension from another state system as well as a volunteer firefighters pension as long as the age and service requirements are fulfilled.

Effective July 1, 2009 a member may designate a spouse or dependent child as survivor beneficiary upon retirement. Survivor benefits paid to a dependent child will cease when the child reaches age 18.

Effective January 1, 2016 a member may only adjust/correct service credit for the two previous years reporting years.

There are no provisions for pre-retirement death benefits or disability retirement for volunteer firefighters.

INVESTED IN TOMORROW.

June 2019

## Service Credit

---

**Prior to January 1, 2009**, a member will earn one year of service credit as a volunteer firefighter for each year that the member:

- attends at least 75% of fire drills they are held responsible to attend,
- attends at least 75% of business meetings they are held responsible to attend, and
- participates in at least 50% of all emergency response calls.

**Effective January 1, 2009**, a member will earn one year of service credit as a volunteer firefighter for each year that the member:

- attends at least 50% of fire drills they are held responsible to attend,
- attends at least 50% of business meetings they are held responsible to attend, and
- participates in at least 50% of all emergency response calls for which they are held responsible to attend.

## Attendance Information

---

It is the responsibility of each fire chief to submit volunteer firefighter attendance information yearly. Failure to report this information by the March 31 deadline will mean the loss of credit for that calendar year for the entire department. Please verify with your fire chief that your service credit has been submitted to PERA.

## Adjusting Service Credit

---

Effective June 14, 2019 through March 31, 2020, a member may adjust/correct service credit from January 1, 1984 through December 31, 2018. Prior to June 14, 2019 and after April 1, 2020, adjustments to service credit can only be made to the two years immediately preceding the current year.

## Vested Termination

---

If you cease to be a volunteer firefighter prior to meeting the age and service condition for retirement and you have a minimum of 10 years of volunteer firefighter service credit, you may apply for a deferred pension when you meet the age and service requirements under the VFRA.

## Pension Eligibility

---

To qualify for a VFRA pension under PERA, you must be age 55 or older with 10 or more years of volunteer firefighter service credit. The monthly amount of your pension is dependent upon your years of service. If you have 10 or more years, but less than 25 years, you will receive \$125 per month. With 25 years or more, you will receive \$250 per month. You may continue as a volunteer firefighter after you retire, but you will not accrue additional service credit.

## Retirement Process

---

We recommend that you send us your PERA Application for Pension paperwork 60 days before you terminate service. Your retirement becomes effective the first day of the month after the month your application is processed by PERA and age and service requirements are met. Please request a retirement packet from PERA.

## Survivor Pension

---

Upon your death your surviving spouse will be paid two-thirds of the amount of pension you were receiving at the time of your death. The pension to your surviving spouse terminates upon either remarriage or death.

## Right to Appeal Denial of Benefit Claim

---

PERA will notify you in writing within 30 days if your claim for a benefit has been denied. The notification will explain why your claim was denied. The denial can be appealed within 90 days. The appeal should contain your reasons for believing the denial to be improper. A hearing will be scheduled by the PERA Board within 60 days of receiving your appeal.
